Exclusive fittings in a premium design

From elegant designer fittings through to modern classics: fittings from heinrichschulte appeal to many preferences and at the same time satisfy the highest standards regarding product quality and safety. They convince through their stylish design and their durability not only in modern kitchens and private bathrooms, but also in exclusive water adventure worlds as well.

heinrichschulte, which has been based in Iserlohn since its foundation, has focussed its production on high-quality fittings series for bathrooms and kitchens since 1921. Even today the company manufactures in great production depth at several locations in Iserlohn and in this way guarantees consistent strict quality monitoring and high product quality. This is verified through DVGW audits and certificates.

Since 1975, along with washbasin, bathtub, shower and kitchen fittings the product portfolio has included modern control elements for limiting water volume and temperature, as well as space-saving flush-mounted assembly boxes. All product series are continuously further developed under the direction of specialists from heinrichschulte, so that they conform to highest quality requirements with regard to ease of assembly, functionality and safety of drinking water.

Fulfilment of the highest quality and design standards, excellent service and consistent environmental protection are the cornerstones of heinrichschulte's success.

Our employees ensure with great commitment that the company can react very quickly to customers' wishes and changes in the market. Many years of experienced and in-depth expertise support Germany as a production location and strengthen consumers' trust in products from Iserlohn.

Guarantee provisions

The guarantee period for Heinrich Schulte sanitary fittings is 5 years from the date of purchase (voucher from Heinrich Schulte).

It covers exclusively material and production defects. No guarantee is assumed for damage or defects caused by the following reasons:

- Unsuitable or improper use
- Faulty installation or commissioning by the buyer or a third party
- Installation not in accordance with DIN
- Missing or faulty safety devices (e.g. pressure reducing valves or relief valves)
- Natural wear, in particular wearing parts (e.g. gaskets, perlator aerators)
- We assume a guarantee of 2 years for cartridges (control elements) for single-lever mixers, provided that their function was not impaired through pipe scale, dirt particles or hard water
- Faulty treatment of the surface (e.g. with unsuitable cleaning agents) or negligence (e.g. calcification or contamination)
- Damage caused intentionally or through gross negligence by the buyer or third parties is also excluded from the guarantee, as is consequential damage resulting from delayed notifications of complaint
- Complaints must be notified to us without delay after detection. We must be given the necessary time and opportunity for what we regard as necessary - improvement, renewal or provision of replacements.

If the complaint proves to be legitimate, during the guarantee period we will pay the costs of replacement including shipping costs.

We assume an availability guarantee of 10 years for replacement parts after production is discontinued.

Customer service: tel.: +492371 / 9090-32

This price list invalidates all earlier price lists.

Prices are understood including packaging ex works.

VAT at the valid rate, as may be amended from time to time, is added to the invoice value.

We reserve the right to make changes to construction, dimensions and designs.

We reserve the right to change prices without prior notice.

Apart from the above, our general terms and conditions apply.

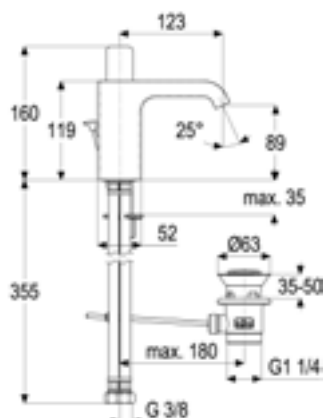

Reprinting or duplicating, regardless of the method used, and including extracts, are only permitted with our approval.

”Wellness in natural stone“ by wintec

Natural stone has fascinated people for thousands of years.

In recent years, more and more applications have been found for its use as a buildingmaterial.

Natural stone is designed unmistakably over time by nature. Individual colour deviations and natural irregularities are visible signs of authenticity. Each hand-made piece is unique – a product with a timeless appearance.

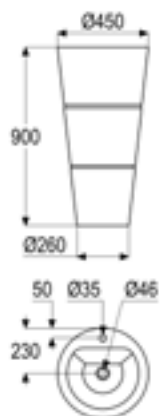

With the right care, it not only gains in attractiveness but also in character and keeps for ever.
